3rd October 2017

To whom it may concern,

Boyd Jorgensen was engaged to facilitate a review of the timetable at Earnshaw State College in 2017 and he worked with the college in August and September 2017.

Boyd's extensive experience and capabilities as a school principal and school reviewer enabled a thorough, efficient and effective review to be undertaken. Boyd was very careful in ensuring that he understood the needs of the College, negotiated and established an appropriate review process and then worked assiduously to collate his findings and deliver a thorough and comprehensive report.

Boyd kept me informed of progress with regular updates and feedback and he was always responsive to any questions and/or requests that I had.

Boyd was highly professional and respectful in his presentation, interactions and conversations with staff, students and parents. He quickly established his credibility and approachability with the people that he interacted with, inspiring a high degree of confidence in his role as a reviewer and his capacity to deliver an independent and objective report. People were very positive in their feedback about their interactions and conversations with Boyd.

Boyd collated and presented a comprehensive report, meticulously compiled and supported by a range of research and evidence, diligently collected. He provided a clear rationale for his findings and subsequent recommendations in both his conversations with me and in the written report.

The report was provided to the College in a timely manner and his services represented excellent value for money.

I have no hesitation in strongly recommending Boyd's services as a school reviewer and school improvement consultant.

Yours faithfully

A handwritten signature in black ink that reads 'David Bosworth'.
